### American Iron Drivers tackle Mid Ohio

The April season opener saw the debut of Chris Durbin's Forolet, or is it a Chevord? Yes, Chris has gone to the dark side and installed a Chevy LS1 crate engine in his Ford Mustang, taking advantage of a rule that allows for engine swaps in AI through the end of 2011. It worked, as Durbin grabbed the pole and race win on Saturday. His times with the still unsorted combination were close to his best ever. Look for more speed as he gets it figured out!

John Cece, in his Firebird took Sunday's pole. John got his Comp License last fall at Gingerman, so is still very much a Rookie! Cece won TTB Saturday and decided to have a go at the Chevord of Durbin on Sunday. John gave it his best but was unable to hold off Durbin. Cece's fast lap was only .3 back! Durbin took the win on Sunday and starts his season off with a nice 110 point lead in NASA Great Lakes AI points.

Next up is the crossover event at Putnam Park where the best of NASA Great Lakes has a go at the best of NASA Midwest. Don't miss it!
